#### **Canadian Farmers Profit From Wheat**

The war's devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and wheat near \$2 a bushel offers great profits to the farmer. Canada's invitation is therefore especially attractive. She wants settlers to make money and happy, prosperous homes for themselves by

Prosperous homes for themselves by helping her raise immense wheat crops.

You can get a Homestead of 160 acres FREE and other lands at remarkably low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming as profitable an industry as grain raising The excellent grasses full of nutrition are the only food required for beef or dairy purposes. Good schools, churches, markets convenient, climate excellent.

Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government is urging farmers to put extra acreage into grain. Write for literature and particulars as to reduced railway rates to Supt. of Immigration, Ottawa, Canada, or

Past Brighton cliffs, Beachy head, Hastings ONLY NOBLES AND PEASANTS and Dungeness it roared with clouds of sulphur smoke and vast painted silk banners shining high above.

The Vengeance was in the press of it. Amyas Leigh was at the helm, and by his side fierce old Salvation Yeo, who had been with John Oxenham at Panama and had only one wish in all the world-to pay back the Spaniards for hanging that beloved captain.

Through smoke and bangings and battles, now of single ships, now of for infants and children, and see that it | confused squadrons, these two steered the Vengeance ever again toward one Spanish ship, a great galleon whose banners flaunted the bright coat-ofarms of De Soto. And Don Guzman was not remiss. Shining in silvery mail, his brave figure stood on the poop, beckoning to Amyas Leigh with a hungry sword.

The sea-fight drove down on Calais, and toward yellow Dunkirk sands, and of a sudden northward and out into the North sea. Then the English fleet knew that the great Armada was running. Past Yarmouth and the mouth of the Humber and Flamborough head they drove the fleeing ships. The Scottish coast came in sight. My Lord drove them beyond the tempting shelter of the Firth of Forth.

Once past there, it was all over. The avalanche that was to overwhelm England had melted helplessly and pitiably away.

One by one the English ships dropped off, to pillage prizes or carry them into port. At last only one ship remained in chase. It was the Vengeance, and the ship she chased was the galleon Santa Catherine-shottorn, gale-battered, her gold tarnished and her bright silken banners ragged, but unbeaten still and commanded still

Russia a Country Where There Is No Middle Class, as in the Rest of Europe.

Contrary to the laws existing in England and Sweden, in Russia when a lady belonging to a titled family marries a Russian gentleman without a title she takes her husband's name entirely, and the only right left to her of her former title is to write on her visiting cards and official papers, "Mrs. So-and-So, born Princess, Countess or Baroness So-and-So." Her children are called by their father's name. There are only a few exceptions to this rule, according to London Tit-Bits.

In Russia no middle class or gentry are known. There are only nobles and peasants. The czar, however, grants sometimes for special merit the right to be styled a nobleman, and also for the same reason the titles of count and baron, and occasionally that of prince,

All those merchants who have kept firms flourishing for a hundred years have the right to receive the title of baron. This law was made by Peter the Great over 200 years ago, but the Thomas Howard hung to them and merchants very seldom accept this German title and generally decline the privilege.

In former days when the peasants were still slaves they had no family names, but were called by their father's Christian name. Peter's son was called son of Peter-in Russian Petrov. So also Smirnoy-Simon's son : Ivanov -Ivan's (John) son; and so on, When slavery was abolished and the emancipation proclaimed by the Emperor Alexander II, they all kept these names. Since then many of them have received the right to belong to the class of nobles.

The Russian clergy, belonging to the class of peasants, for it very seldom happens that nobles become priests, have special family names. Their names mean always a feast day, or a Isle of Skye, whose wild inhabitants precious stone, or something connected with the church. In former days the a clergyman was bound to be a clergythurch they chose a name for them-
